

## **Earth Day is April 22, 2019!**

Celebrate Earth Day by walking and rolling (bike, skate, scoot, bus) to school.

Join children and adults throughout Oregon and around the world to celebrate the benefits of walking and rolling.

An Earth Day walk/ ride can show the importance and benefits of:

- Reducing traffic congestion and pollution near schools
- Increasing community traffic safety
- A walkable community (and where improvements should be made)
